### **Trial Eligibility and ORTs**

The ORT Title must be earned at least 14 days before a trial opening date to be eligible for the first draw period.

All odors must be passed in order to earn the ORT title. It is not required that they all be passed at the same test.

If you require confirmation via USPS, you must provide a self-addressed stamped envelope with your entry. Your payment receipt and notification are confirmation of your completed entry.

### **Basic Description of the Test**

To successfully pass an ORT a dog must identify the location of the target odor, and the handler must correctly call an "alert" within a **two minute 30 second (2:30)** time period. The Odor Recognition Test consists of a drill type exercise which requires 12 closed boxes typically set up in a pattern of two rows, spaced a **minimum of 36" apart**. The ORT is conducted on leash. Complete information can be obtained on the NACSW website. Handlers may test on all 3 odors at the same event.

*All exhibitors should obtain and review a copy of the **NACSW K9 NOSE WORK® RULE BOOK**. You may get it from their website: [www.NACSW.net](http://www.NACSW.net)*

**No dog will be given more than one space in the same odor test at a single event.**

## LOCATION DETAILS

### **ADA Site Specific Conditions**

The competitor parking lot is pavement with solar panels shading majority of parking spaces. Moderately long walk is required to get to the search area, all on concrete sidewalks, but changing elevation with ramps. ADA bathrooms are located inside.

***Due to unforeseen conditions, such as weather or change in availability of areas at the location, these conditions may be modified at the last minute.***

Modeled after real-life detection work, NACSW events are held in many different locations, with a variety of terrain, under varying weather conditions. Dogs and handlers need to be able to safely negotiate a variety of surfaces, including, but not limited to, tile, linoleum, carpeting, gravel, asphalt, uneven surfaces, and slippery footing. Handlers should be prepared to deal with a variety of weather conditions, including heat, cold, rain and snow. Events frequently require covering extensive distances to get to and from the parking area to each of the search areas and generally require that this be done across natural, uneven surfaces. Handlers should be prepared for physical demands and must be able to navigate the terrain with their dog accordingly. Handlers should expect to spend most of the day outside or in their vehicles as there are rarely indoor crating options at events. Please be prepared for you and your canine partner to deal with all of these varying environmental challenges. Handlers should familiarize themselves with potential regional risks and health concerns that may affect themselves or their dogs. Handlers agree that they are entering this event at their own risk.

**Due to unforeseen conditions, such as weather or change in availability of areas at the location, the details below may need to be modified at the last minute.**

### **Parking**

The parking lot is paved with shading above. The parking lot is small with no extra space between vehicles.

### **RV Parking**

The parking lot is small and can't handle vehicles that take up more than one standard parking space. Large RVs can't be accommodated. There are height limitations. Please contact the Test Host Contact/Secretary if you are unsure about parking. Only a limited number of camper van type vehicles can be accommodated.

### **Running Vehicles or Generators in the parking lot**

The parking is tight at this location and running your vehicles or generators in the parking lot is not allowed at this event.

### **Reactive Dog Parking**

There will not be specific reactive dog parking at this event.

### **Unentered Dogs**

Unentered dogs must remain in the handler's vehicle during the event day. There will be ample potty areas, but unentered dogs should not be allowed to "play", exercise, socialize, or train on the event grounds.

### **Facility/Site Prohibitive Restrictions (e.g., smoking, firearms, alcohol, drugs, video)**

Alcohol, firearms, & smoking (vape, nicotine, or marijuana) is not allowed on this event site.

## DOG INFORMATION

## **Dog Policies**

- All dogs must always be on a 6' leash when not searching. NO flexi-leashes while not participating in a search.
- Reactive and/or spatially challenged dogs should wear a red bandana (to be provided by the dog's handler) to help signal others that the dog needs extra space from other dogs.
- Dogs will be toileted in designated areas and handlers must pick up and dispose of waste.
- Dogs and handlers must stay in designated areas to avoid contaminating search space, interrupting a search, or from viewing any part of the search.
- Handlers should expect to keep their dogs confined in a crate or vehicle when not searching. The logistics of an event typically do not allow for dogs to hang out on leash in between searches. Handlers should plan to provide their own shade using canopies or shade cloths.
- Refer to location details (above) for information on unentered dogs.

## **Females in Season**

Females in season will be allowed to run wearing "pants" at the very end of the day after all other dogs have tested. Handlers with females in season should park and toilet their dogs away from the other dogs if the location logistics permit. Handlers must email the Test Host ([releasecanine@gmail.com](mailto:releasecanine@gmail.com)) so plans can be made for the dog.

Everyone at the site must sign the waiver provided by the host and comply with all event requirements. Handlers are not allowed to watch the searches at any time.
